In reference to the painting **Iowa August**, oil on canvas, 24 x 96 inches, 2012 installed at the Cedar Rapids Federal Courthouse, Cedar Rapids, Iowa on September 24, 2012.

Care of painting:

The support for the painting is cotton canvas adhered to an SSP Aluminum Support Panel, 1/2 inches thick, provided by Museum Services Corporation, 385 Bridgepoint Way, South St. Paul MN 55075-2466.

Two coats of Liquitex Acrylic Gesso were applied to the canvas panel prior to painting. The medium is oil paint using primarily Utrecht brand paints along with some Winsor Newton brand colors.

There should be no major maintenance issues other than an occasional dusting using something like a Swiffer Duster. Sometime after September, 2013 it could be inspected to determine if the application of a removable protective varnish should be applied such as Soluvar. I have had conflicting opinions about protective varnishing from conservators. Since the painting is in a smoke free environment with I assume the most up to date HVAC system, it seems unnecessary.
